Election/Restriction

1. Upon initial review of the claims it appears that claims 1-8 differ in subject matter and therefore require a different search. In accordance with this a restriction is deemed proper.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1-4 and 7-8, drawn to an apparatus which provides focus control of objects in a workspace, classified in Class 345, subclass 767.

Group II. Claims 5 and 6, drawn to an on-screen workspace, wherein distinct interface elements may be manipulated, classified in Class 345, subclass 765.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions Groups I-II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. Invention I has separate utility such as an apparatus providing a focus moving means for moving focus to specific locations designated by anchor information in a displayed hypertext document. While Invention II also involves a hypertext environment, it is however, directed to a means for adding button/key selection attributes to anchor information of a document, wherein no anchor having a button key selection attribute exists. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and divergent subject matter, and because the searches for the individual groups are not coextensive, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the response to this requirement to be complete must include an

Art Unit: 2174

election of the invention to be examined even though the requirement be traversed.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
